### FEATURES

#### Specifications

Model: Excavator

Working Weight: 7210kg

Bucket Capacity: 0.31m³

Overall Length: 6070mm

Highlight:

**7210kg Large Used CAT Excavator,  
2nd Hand Hydraulic Excavator CAT307**

Product Power: Traditional Power

Power: 41kw 2200rpm

Maximum Walking Speed: 3.3/5.2km/h

Overall Width: 2290mm

## PRODUCT DESCRIPTION

### Used CAT Crawler Excavator Digger: Sturdy Construction

The Used crawler excavator is constructed to handle demanding jobs with ease. Its 7210 kg machine weight and 0.31m³ bucket capacity, along with a 41KW, form a robust combination for heavy - duty tasks. With branded hydraulic components and essential core parts, this excavator, in excellent condition, is built to last.

<b>Project</b>	CAT 307
Working weight	7210kg
Power	41kw 2200rpm
Bucket capacity	0.31m³
Maximum walking speed	3.3/5.2km/h
overall length	6070mm
overall width	2290mm
overall height	2630mm
Maximum digging radius	6340mm
Maximum digging depth	4110mm
Maximum digging height	7290mm
Maximum unloading height	5150mm
Maximum vertical excavation depth	3640mm
Maximum excavation radius at ground level	6200mm
Engine Name	Mitsubishi 4M40E1
Engine displacement	2.84L

### Powerful and Efficient Performance

This excavator delivers powerful and efficient performance, essential for demanding jobs. The high - performance Caterpillar engine provides consistent power while keeping fuel costs low. The advanced hydraulic system enables quick and efficient operation, allowing you to complete tasks faster, even in challenging conditions.

#### Built to Endure Harsh Conditions

Designed to endure harsh conditions, the excavator features extra - thick, anti - abrasive tracks and a strengthened arm structure. It can operate in extreme environments, such as rocky mountainsides in mining or muddy fields in agriculture, without showing signs of wear and tear. Its durability ensures long - term performance, reducing the need for frequent overhauls.

#### Intelligent Monitoring for Proactive Maintenance

Equipped with advanced onboard sensors and a smart dashboard, the excavator allows for intelligent monitoring. Real - time data on the machine's health helps you detect potential issues early. The predictive maintenance feature enables you to schedule maintenance proactively, preventing breakdowns and minimizing downtime during critical projects.

#### Versatile for Diverse Demanding Projects

This excavator is highly versatile and suitable for diverse demanding projects. In mining, it can handle high - intensity rock excavation. For large - scale building construction, it efficiently manages excavation and foundation work. In agricultural development, it aids in large - scale land reclamation and canal digging. It also performs well in industrial infrastructure projects, handling earthwork tasks with precision.

#### Support and Services

- **Troubleshooting and diagnosis:** Handle any technical issues with professional diagnosis and solutions.
- **Repair and maintenance:** Provide regular and on - demand services to ensure your excavator runs smoothly.
- **Parts and component replacement:** Replace damaged or worn - out parts promptly with high - quality components.
- **Equipment inspections and evaluations:** Conduct thorough inspections to accurately assess the condition of your excavator.

#### FAQ

##### Q1: How do you ensure the performance of used excavators?

A:Our experienced team conducts thorough inspections and performance tests on each used excavator to ensure it meets our high - performance standards.

##### Q2: What's the delivery time?

A:Delivery is within 7-12 working days after receiving the advance payment. We prioritize quick delivery to support your project timelines.

##### Q3: Can the price be negotiated for large orders?

A:Yes,we are open to price negotiations for large orders.The more you order,the more favorable the pricing we can offer based on your specific requirements.
